Hudson Hospice Volunteers, Inc. is a supportive services program established in 1980 to assist terminally ill patients and their families. **BEREAVEMENT SUPPORT** is an essential part of our caring outreach.

Our Children's Grief Support Program helps youngsters cope with the death of loved ones.

Children do not have the life experience nor the language to understand and express the emotions that they must deal with when someone they know dies. All too often adults, in their own sorrow, can forget that...
...little people grieve, too!

By using the "tools" already at their disposal...*art and play*...children can learn to understand and cope with the death of loved ones

A special interactive session to help children aged 5 to 8 years of age to cope with the loss of a loved one.

FEATHER is a caring and compassionate clown who befriends little persons and helps them express the emotions they are trying to understand as they live without the person who has died.

FEATHER uses the skills of clowning, storytelling, mime and puppetry...to allow the easy expression of the sadness, anger, fear and uncertainty that they may have.

"SAD-MAD-GLAD" is available to your school, church, or organization as a service to our community. If you are interested in obtaining information about how you can schedule this session, please call Hudson Hospice Volunteers at 201433-6225.
